Dave and Rose Becker with their thirteen grandchildren at the 2022 Sale.

Welcome to our 4th annual production sale

From three years of drought to extreme amount of rain in the spring and into summer, then no rain in the fall, then things dried up again. The upside is everyone has an abundance of hay and pasture this season. The downside, it was poor quality due to fast growth, late harvest and pasture having too much moisture content. Consequently our weaning weights are lighter this year as well as others in the area, our heifers had no supplements just milk from Moma. The bulls received supplements 30 days before weaning, then fed a high roughage diet. The fall yearling bulls were fed hay in a large pen all summer, then placed with the spring yearlings in the fall.

We try to offer a variety of types of cattle for different operations. There will be something for everyone whether its calving ease, performance, maternal, carcass, moderate or larger frame. There will be a lot of quality calving ease bulls offered on this sale. There are six fall yearling bulls and this year we held six fall heifers back to bred this spring. We are offering two on this sale and 15 yearling open heifers.

All bulls and females have been genomic and parented tested using AngusGS. This allows for higher accuracy on EPD numbers, giving you more confidence on evaluating and selecting cattle for your program. We always strive for quality over quantity, that shows with the embryo work we have done and 26 years of AI work and the pedigrees offered. In conclusion it is all about the cows.

We encourage you to come take a look at them, you will not be disappointed in the depth of quality we have to offer for an affordable price - quality genetics you can count on.

We welcome the opportunity to visit with you and answer any questions you might have. Pictures and videos are on our website beckersangus.com and on LiveAuctions.TV. Please join us in a complimentary lunch at 11AM with cattle viewing starting at 9AM. Auction starts at 1PM! If you would like further information about our sale offering, feel free to contact us.

Thank you,
 Dave Becker

SEMEN TESTING: All bulls will have passed a breeding soundness exam before sale day. Scrotal measurements will be available the week of the sale.

RETAINING SEMEN INTEREST: Beckers Angus reserves the right to retain 1/3 revenue sharing interest in any of the bulls selling. Buyer gets 100% possession, 100% salvage value and 2/3 semen revenue interest.

EPDS: A full explanation of Angus EPDs can be found at <http://angus.org/Nce/Definitions.aspx>. All yearling weights have not yet been submitted, so yearling weights EPDs may change slightly before the sale. Updated EPDs available on our website and on sale day. You can look up individual bulls and heifers by clicking the pedigree that is linked to the Angus Association under sales on website, beckersangus.com. Arbitrary EPD levels determine inclusion of CAB logo with some lots.

GENOMICS: Bulls and heifers were genomically profiled using Angus GeneSeek test. Genomics are used to improve accuracy of EPDs and to get the full set of EPDs. They were also parent verified.

SUPPLEMENTAL INFORMATION: Sale supplement sheets will be posted on beckerangus.com a few days before the sale. They will include current weights, scrotal measurements, updated EPDs and other announcements.

BOARDING ARRANGEMENTS AND TRUCKING: We will not be responsible for injured livestock if they are left with us: you do so at your own risk. We encourage you to take out a livestock policy on your sale purchases. Free delivery on bulls up to 300 miles, after April 28 there will be a \$5.00 per day, per bull charge. Haul your bull home sale day and you will receive a \$50.00 credit per bull. Females must be picked up within one week from auction.

FOOD AND REFRESHMENTS: A complimentary lunch will start at 11:00 am.
